

MANASI JAISWAL

Software Engineer | Full-Stack Development | Application Support

+91 9356661787 | mansijaiswal757@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

BSc IT graduate with 2+ years of combined experience across software development, IT training and user-facing digital operations. Strong foundation in JavaScript, React.js, Node.js, SQL/MySQL, MongoDB, REST APIs, responsive UI development, debugging, testing and software maintenance. Experienced in analysing issues, developing reusable components, building full-stack applications, and collaborating with stakeholders to deliver accurate and reliable solutions. Seeking a Software Engineer role with opportunities to contribute across development, troubleshooting and application support.

WORK EXPERIENCE

MIT World Peace University, Pune | Student Counsellor | ERP & Operations Support

- Handle day-to-day student records, application/process updates and ERP-based workflows with accuracy and attention to detail.
- Coordinate with internal teams to resolve system/process-related issues and ensure timely user support.
- Work with digital systems and structured data while maintaining confidentiality and data accuracy.

Saksent Web Technology Pvt. Ltd., Pune | Web Developer Intern | Jul 2023 - Sep 2023

- Troubleshoot and resolved application defects, contributing to a reported 20% improvement in performance.
- Built responsive UI components using React.js, Tailwind CSS and Flowbite with focus on usability and maintainability.
- Improved user experience through responsive design and component-level enhancements, contributing to a reported 15% increase in engagement.

Disha Computer Institute | IT Full-Stack Developer Trainee | 1.5 years

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, MySQL and MongoDB.
- Applied software development principles including modular design, API integration, debugging, testing and database handling.
- Worked on application improvements and issue resolution while managing tasks independently and collaborating with peers.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), C/C++, Python

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Flowbite

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB, SQL fundamentals

Engineering: Software development lifecycle, debugging, troubleshooting, testing, reusable components, responsive design, API integration, data handling

Tools: Git, GitHub, VS Code, Postman, Thunder Client

Other: WordPress, Netlify, Canva, Photoshop

PROJECTS

Mental Health Awareness Platform | *React.js, MongoDB, Tailwind CSS, HTML/CSS, JavaScript, Node.js, Express.js*

- Built a responsive platform with authentication and API features; implemented reusable UI components, backend services and MongoDB integration; deployed on Netlify.

Shopify Store: Scalable E-commerce Platform | *Shopify Liquid, Tailwind CSS, JavaScript, Node.js, MongoDB*

- Developed product listing and cart workflows; implemented responsive UI, data handling and user interactions with emphasis on performance and maintainability.

Book Store Management System | *React.js, Node.js, MongoDB*

- Led development of a full-stack application for book inventory and user queries; implemented CRUD operations, backend services, database integration and testing.

EDUCATION

BSc in Information Technology and Computer Science - MIT College, Sambhajinagar | CGPA: 7.02 | Graduated: 2023

Relevant coursework: MERN-Stack Development, Python, React.js, WordPress
